

AMECA Accredits Toyoda Gosei for Brake Hose Testing

FOR IMMEDIATE RELEASE

DATE: November 1, 2004

AMECA Announces Accreditation to Toyoda Gosei Company, Ltd
For Testing Automotive Hydraulic Brake Hose

AMECA

Washington, DC – AMECA (Automotive Manufacturer Equipment Compliance Agency) announces it has extended accreditation to Toyoda Gosei Company, Ltd to test automotive hydraulic brake hose.

Only technically proficient, professional laboratories which maintain a record keeping and calibration system are granted AMECA accreditation. The laboratory also must demonstrate the ability test to every aspect to the relevant safety standard. AMECA requires every laboratory to establish and utilize a documented calibration program to assure the required degree of accuracy in measurements. The documented accuracy of all measurement instrument standards remain traceable to primary standards maintained by the National Institute of Standards and Technology of the United States of America or the national physical laboratory maintaining such standards in the country in which the laboratory is located.

Through the accreditation process, Toyoda Gosei Company, Ltd has clearly demonstrated that it has the equipment, personnel and appropriate qualifications to produce accurate, repeatable and technically valid test data to meet the rigorous requirements of the AMECA accreditation process.

About Toyoda Gosei Company, Ltd

About AMECA

The Automotive Manufacturers Equipment Compliance Agency, Inc. (AMECA) is the agent for various states of the United States to provide equipment compliance services. The AMECA program is the only program of its type in the United States. This Equipment Compliance Program is centralized, one-stop, and notifies government, industry and the general public about compliant motor vehicle safety equipment. Our Notice of Equipment Compliance is recognized as evidence of compliance with the regulatory requirements with our representative jurisdictions.

AMECA Accredits Toyoda Gosei for Brake Hose Testing

Every item listed by AMECA has been tested by an AMECA-accredited laboratory and found to be in compliance with applicable United States standards. Our clients are the national and international automotive industry, the standards-setting community, the federal government's General Services Administration (GSA), numerous state governments, as well as some foreign governments.

AMECA maintains a listing of items that have been tested and currently comply with the applicable standards. Called the "Compliance List of Automotive Safety Devices", this listing is updated quarterly and is available free as an Adobe PDF document distributed via email. The international "List of Acceptable Plastics for Optical Lenses and Reflectors Used on Motor Vehicles" is also maintained by AMECA. This document is updated twice a year is also available free as an Adobe PDF document distributed via email. To receive your free copy of the either document send an email request to info@ameca.org.
